GPA is calculated using a 5.0 scale. The GPA reported to colleges is the weighted, academic, 9 – 12 GPA which is calculated using the guidelines in the table at left. During Spring 2021, students were given the option of taking courses PASS/FAIL, which is not calculated in a student's GPA.

RANKING: CHS does not rank*

*CHS does not rank students as GPA is an inaccurate and faulty metric to evaluate, compare, or rank individual academic performance.
