Class Placement Parent Input Form

Each year, we work to establish classes that are balanced. Our goal is to place your students in a class that is on par with any class at that that grade level within any curricular area at the school.

Parents/Guardians who would like to give input about their child's placement should submit this form to the school principal on or before May 10th

When making class placement decisions, the principal will take into account a variety of factors to achieve the best balance possible. The following factors are considered:

- Each student's academic status, special needs, interests, behavior, and motivation;
- Boy/girl ratio;
- Academic balance of high, medium and low achieving students;
- Styles of individual teachers;
- Class size balance among classes at each grade level.

Parents and guardians may provide information to the principal which may be helpful in making placement decisions. Requests for or against a particular teacher will not be accepted. Instead, please describe information such as learning style, educational needs, classroom environment or personality attributes:

_____
