Submit a California Public Records Act Request to Carmel USD

The Carmel Unified School District (CUSD) is committed to transparency and providing easy access to public records pursuant to the California Public Records Act (CPRA). The California Public Records Act gives the public the right to access records created and maintained by public agencies in the course of their normal business.

Pursuant to Government Code Section 6252(e), a public record is defined as "any writing containing information relating to the conduct of the public’s business prepared, owned, used, or retained by any state or local agency regardless of physical form or characteristics." Public records requests may be used to obtain "records," which include a wide variety of documents and other materials (including print, photographic, and electronic formats) that were created or obtained by the organization and are, at the time the request is filed, in the organization’s possession and control.

Records subject to disclosure under the CPRA may include email or other communications from members of the public or which reference them. While the District reviews all responsive records to determine if this information should be disclosed, in many cases references to members of the public, or the content of their communications to the District are subject to disclosure. Permissible exemptions from disclosure include documents that invade an individual's right to privacy (e.g., privacy in certain personnel, medical, or student records) or hinder the government's need to perform its assigned functions in a reasonably efficient manner (e.g., maintaining confidentiality of investigative records, official information, records related to pending litigation, and preliminary notes or memoranda).

All requests will be posted to the District's CPRA webpage.
Your request: (To enable staff to respond to your request as efficiently as possible, please include: The date range for the records requested; the department that holds the records (if known); and the types of records, including any important keywords. Please do not include any confidential information.)

This data request is for the 2022 RDEIR for the Carmel High School Stadium Improvements project. We would like to obtain the following digital files that were used to produce the air quality and public health impact analyses, as prepared by Illingworth and Rodkin (2022). Those files should include the following:

- Five (5) year AERMET data set used in the analyses
- The AERMAP and AERMOD input/output files
- The working Excel spreadsheets used to calculate the health risk impacts for both cancer, chronic and acute
- The CalEEMod input/output for both construction and operational emissions

By providing this data as soon as possible, we can then prepare comments on the RDEIR.

We can also provide a shared drive location for the modeling and emissions data if needed. Please let us know.
