Good afternoon,

Without waiving its rights or any objections that may be available to it, the District has determined that it does not have records responsive to your California Public Records Act ("CPRA") request (request no. 2223_73). The District interprets Part 1 of your request as seeking records in connection with the District's 2008 Modernization and New Construction at Carmel High School Project, which included the District's New Theater Building, New Pool, and the reconstruction and modernization of Science Classrooms, which was constructed over 10 years ago. Likewise, without waiving its rights or any objections that may be available to it, the District has determined that it does not have records responsive to Part 2 of your CPRA request in connection with any improvements made to the baseball practice area at Carmel High School in 2019. In general, please be advised that the Construction General Permit and SWPPP requirements cited in the request only apply when there is a disturbance of one or more acres of soil. The 2019 improvements to the CHS baseball practices area were below this acreage threshold.

The District notes that Parts 3 and 4 of your request concern future construction activities. The CPRA only applies to records in the District's possession at the time of the request. (Gov. Code, § 7922.535.) The District has no duty to create records in response to a request.

This completes the response to your request.

Jessica Hull (she/her/hers)
Chief Communications Officer
