When was this last updated? My understanding is that you must update it each year and make public?

California's public education system. Simplifying a little, it's a written three-year plan that school districts must update and make public each year.

Good afternoon Fran, I am afraid that you may be confusing the facilities master plan with the LCAP. The facilities master plan is a long range plan that most districts, in my experience, collaboratively create every decade or so. I hope this helps, Ted

Thank you for the clarification Ted. Doesn't one have to be legally updated each year? Where is a 2021 version of that requirement?

LCAP's have to updated yearly, is that what you are asking for? Master facilities plans do not have to be updated yearly.

Yes, if LCAP's have to updated yearly, shouldn't there be a 2021 update available to the public?
